

Ramsons™ Hydro Extractors

Ramsons Non-Coaxial Series (RNC)

- Rugged close grained graded cast iron construction with pedigree hydraulic transmission clutch to provide smooth and vibration free extraction on balanced loads
- The drive from the hardened main steel spindle to the hydraulic clutch is through matched V-belts drive, with spring loaded friction, ferrado brake liners with tensioners to reduce high initial torque
- The machine comes standard with control, electrical and safety limit switch on the loading door

Ramsons Direct Drive Series (RDD)

- The inner basket and the outer drum are made of stainless steel and the inner basket is directly mounted on the drive motor
- The motor is suspended with a coaxial setup along with thermal and anti humidity insulation
- All the machines have the necessary door lock mechanism and continuous current braking system to assure a simple and safe operation
- The design provides a quick, self-balancing noiseless and vibration less performance

Ramsons Heavy Duty Series (RHD)

- High capacity, efficient and energy consumption
- Auto controlled devices, timer and balanced protection brake
- Overload display device and cover protect device ensures safety operation and extends the life span of the machine.
- Additional load/unload features make the operation very convenient

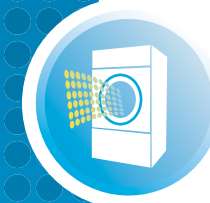

Model	Capacity (Kgs)	Cylinder Size (mm)	Cylinder Speed (rpm)	Extractor Motor (hp)	Drain Size (mm)	Dimensions (L x W x H) (mm)	Net Weight (kgs)
RDD 15	15	Dia 510 x 330	960	2.0	Dia 50	760 x 1010 x 1100	160
